

Syllabus update

Cambridge IGCSE Mandarin Chinese 0547 (for examination in June 2016)

We have updated this syllabus. The latest syllabus is version 2, updated in February 2015.

The statement on page 7 about the availability of this syllabus to private candidates has been revised.

Reference to teacher accreditation have been removed from page 16.

We want to ensure that all teachers involved in the assessment of Speaking Tests can access and benefit from the training materials and opportunities provided by Cambridge. Therefore we are discontinuing the teacher accreditation process for Cambridge IGCSE Speaking Test assessors. Guidance on the delivery and assessment of Cambridge IGCSE Speaking Tests will be available on our Teacher Support site from January 2016.

The last exam series for which you can be accredited to assess Speaking Tests will be June 2015.

We understand that some teachers may already have applied for accreditation for the June 2016 series. If this is the case, you can still complete the accreditation process as long as you submit your application by 15 October 2015.
